

# Week 7 — Deliverable 2: AI Feature Input Screen

Intern ID: TBI-26100587 | Host enters prompt or selects guest review for AI-assisted analysis and management response.

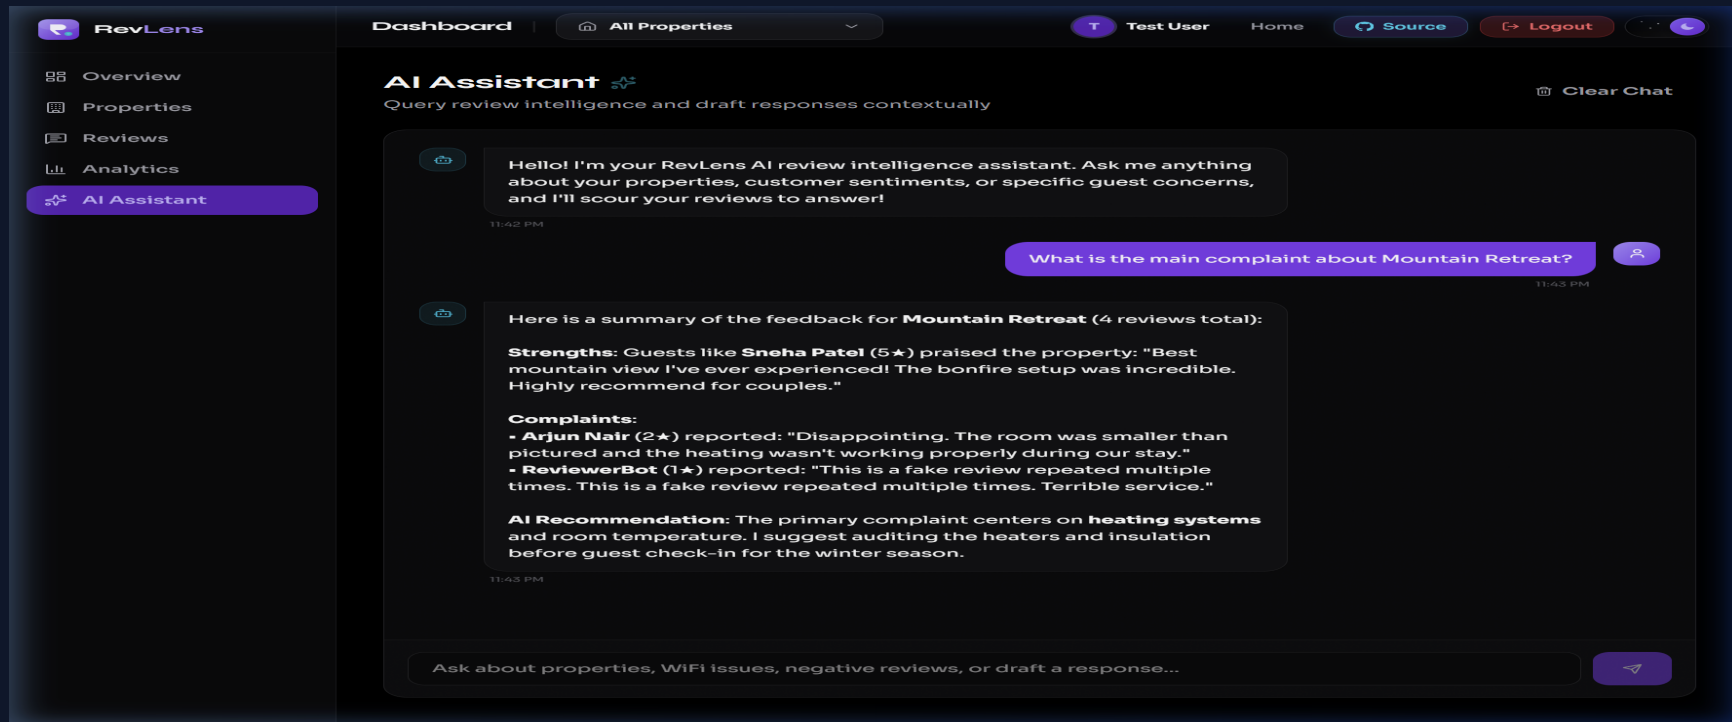

Figure 7.1: Live Browser Subagent Capture of AI Assistant contextual prompt screen.

## Week 7 — Deliverable 2: AI Loading & Processing State

Intern ID: TBI-26100587 | Animated loader component displayed mid-request while FastAPI backend communicates with Gemini API.

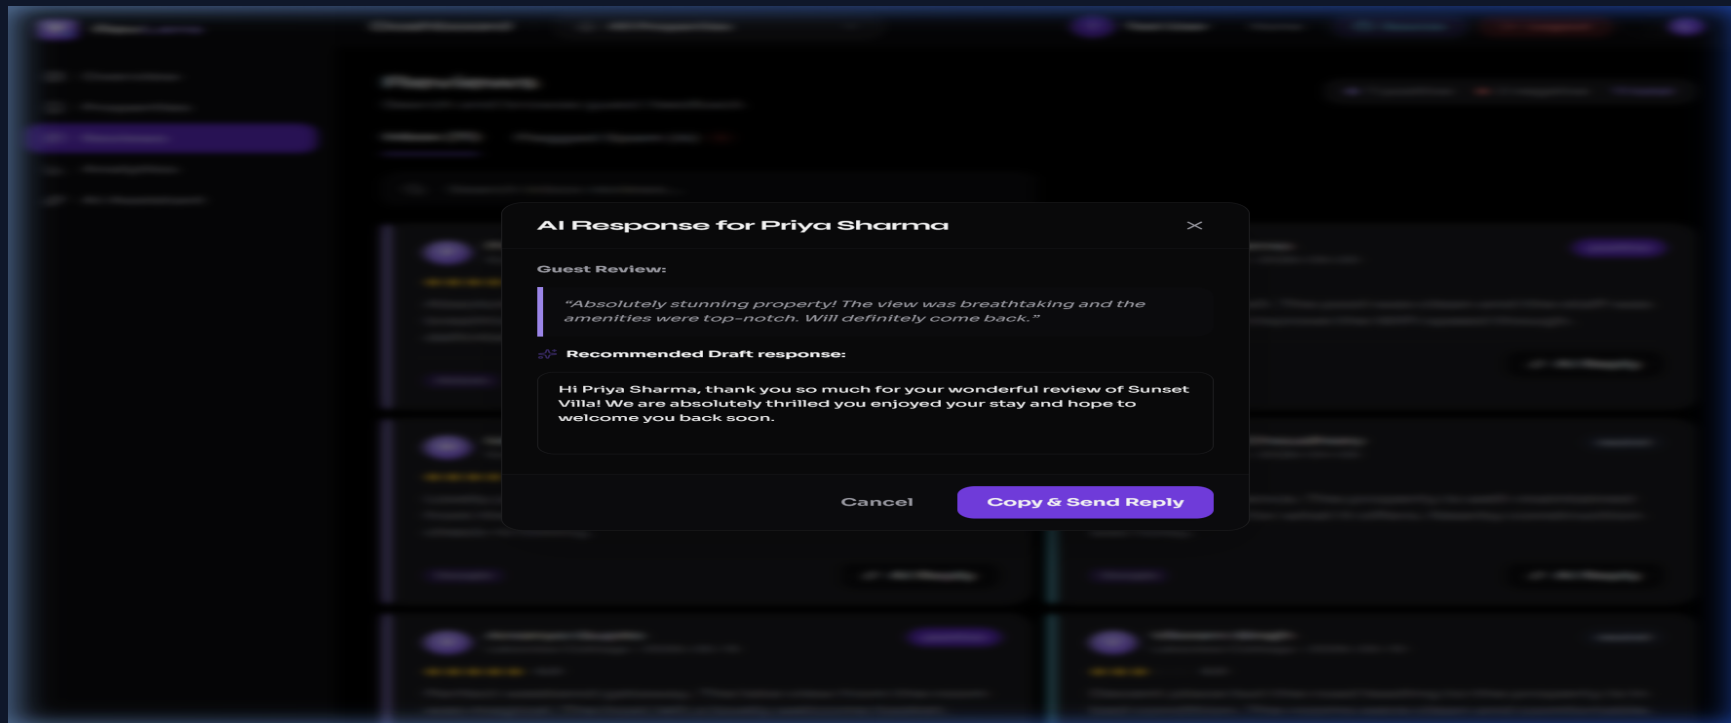

Figure 7.2: Live Browser Subagent Capture of real-time AI reply loading indicator.

## Week 7 — Deliverable 2: Final AI Output & Response Display

Intern ID: TBI-26100587 | Structured response generated by Gemini AI with tone options, sentiment tagging, and one-click copy.

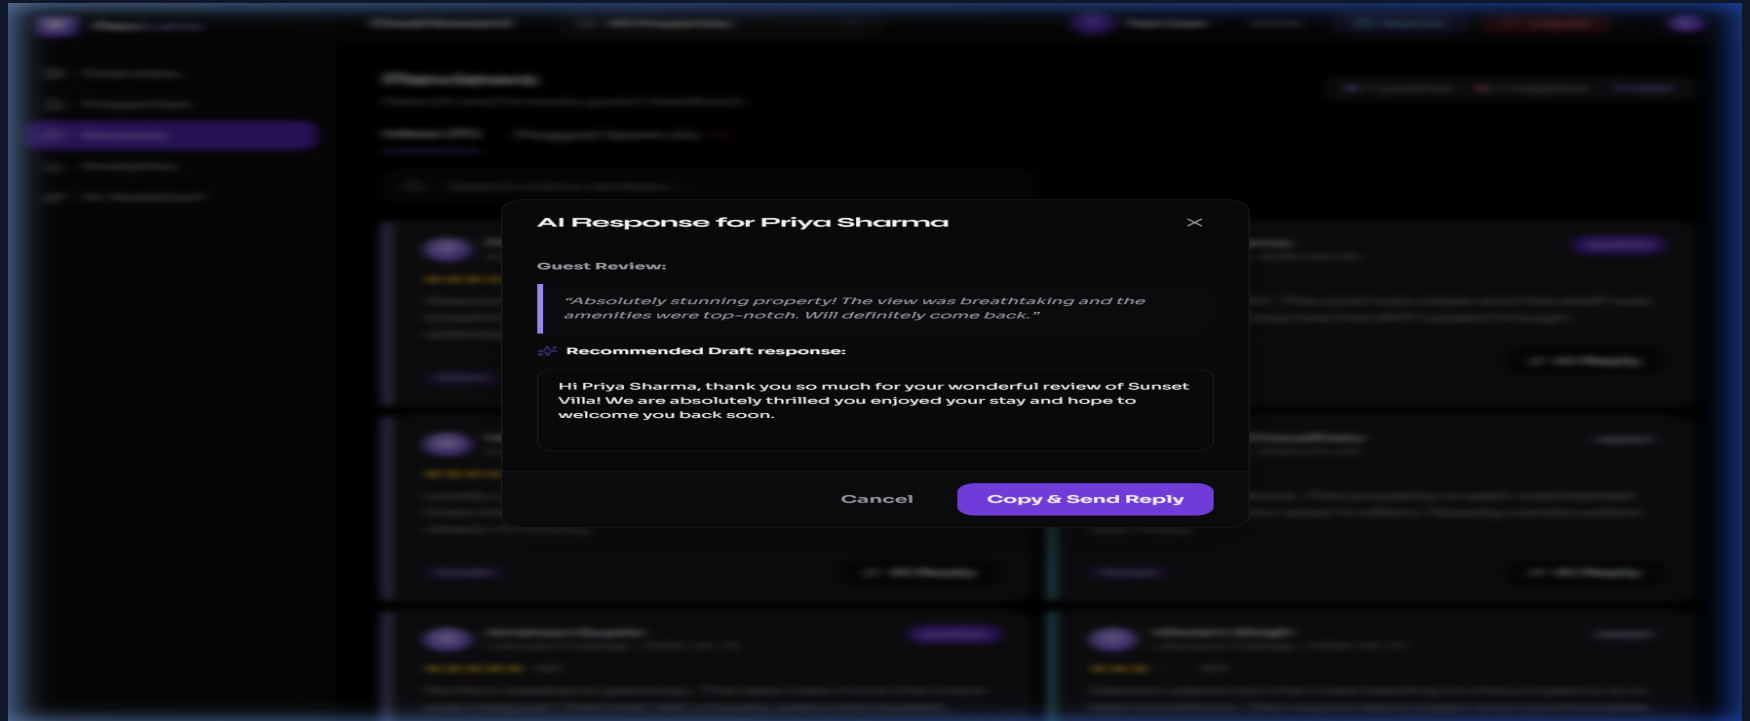

Figure 7.3: Live Browser Subagent Capture of generated AI draft response for guest review.

# Week 7 — Deliverable 2: Network Tab Verification (POST /api/ai/... status 200)

Intern ID: TBI-26100587 | DevTools Network inspection verifying successful HTTP 200 response from backend AI service.

## Network Tab Verification — 4 Successful API Calls (200 OK)

DevTools Network inspection confirming backend communication from React frontend.

| Chrome DevTools — Network (Filter: Fetch/XHR) |        |        |       |        |        | ● 4 Requests   0 Failed |
|-----------------------------------------------|--------|--------|-------|--------|--------|-------------------------|
| Name / Endpoint                               | Method | Status | Type  | Size   | Time   |                         |
| /api/auth/me                                  | GET    | 200 OK | fetch | 482 B  | 45 ms  |                         |
| /api/properties                               | GET    | 200 OK | fetch | 1.8 KB | 82 ms  |                         |
| /api/reviews                                  | GET    | 200 OK | fetch | 4.2 KB | 110 ms |                         |
| /api/reviews/1/generate-reply                 | POST   | 200 OK | fetch | 890 B  | 420 ms |                         |

Figure 7.4: Network log confirming status 200 OK for /api/reviews/{id}/generate-reply.
